

Join Us for OpCom 2008

For a seminar and field exercise series in deployable, tactical and interoperable communications supporting emergency, disaster response and continuity of operations plans. Voice, data and video anywhere, anytime and under almost any circumstance.

For the complete list of CDW-G 2008 Public Safety events, please visit our Web site at CDWG.com/tradeshows. Please contact your dedicated CDW-G account manager for more information.

The CDW-G OpCom 2008 events are coming to a location near you:

- June – Salt Lake City, UT
- September – Detroit, MI
- October – Raleigh, NC

See live solutions that support law enforcement, emergency management, fire/rescue, emergency medical services and continuity of operations, including:

- Satellite communications
- Ad hoc networking
- Situation awareness
- Video security and surveillance
- Mobile computing
- In-car video
- Deployable incident command systems
- Communications interoperability
- Alert notification systems
- Mobile video conferencing
- And more!
